International Business Mail

PUT YOUR BUSINESS ON THE MAP – ANYWHERE

Our knowledge and experience of mailing letters and flats to over 225 countries around the globe, and our extensive resources and relationships throughout the world, means that no matter where your business mail needs to be, we will get it there confidently, efficiently and cost effectively.

Our world-class solutions are backed by our network of international facilities strategically located in close proximity to major airports, and supported by our leading edge tracking and management software. We take care of business, so that you can too.

WE HAVE GLOBAL EXPERTISE

Our International Mailing Experts work with you to craft a global distribution program to meet your business requirements. We can manage your mail at our state-of-the-art-facilities and prepare it to be shipped safely and compliantly. Alternatively, we can manage your mail, end-to-end, at our state-of-the-art facilities and prepare it to be shipped safely and compliantly.

TSA Certified - Cargo Screening Program

With TSA certification, we speed up the transportation process by vetting and screening cargo at our facilities. This enables us to maintain in-house packing integrity, avoid screening delays at the airport and build bulk configurations to minimize cost. Our local postal expertise, knowledge, and relationships ensures your mail is delivered safely, securely, and reliably.

Choose Our Direct Entry Solution and Look Like A Local

With our Direct Entry solution, you can communicate with your customers all over in the world in a style that looks and feels culturally familiar to them. By working with local postal authorities, such as Royal Mail and Canada Post, we make your mail, parcels, and marketing materials appear as though it was produced within that country. You get the benefit of local postmarks so targeted communications lead to higher response rates. For some countries we even provide you with a local return address label if you don't have one.

Varisort

With advanced automation, we can sort more mail quickly, accurately and securely. This is accomplished through our Varisort machine, which is state of the art equipment that will fit your mailing needs. This automation helps us process millions of pieces of mail every year which enables us to offer the most competitive rates with exceptional services.

Trust Us To

- Help meet your budget and delivery objectives
- Collaborate with you for maximum cost savings
- Provide visibility at key points throughout the process
