

# NAVIGATING THE WORLD

Global Parcel Solutions (GPS)

## OUR SOLUTIONS WORK FOR YOU

With our cutting-edge e-commerce and global parcel distribution services and our broad portfolio of delivery options, you can be confident that we will help you meet your objectives, budget and delivery requirements to get your parcels to their final destination.

Backed by extensive postal resources throughout the world, we ship dutiable and non-dutiable parcels to over 225 countries, principalities and territories, worldwide. We remove the complexities of international logistics, navigating local laws, regulations, multiple postal administrations, custom duties, and taxes on your behalf, so you don't have to.

# SIMPLIFIED GLOBAL DISTRIBUTION

With a GPS account, users can prepare shipments for visible delivery through the IMEX Global distribution network.

The IMEX GPS Shipping system supports seamless, integrated shipment processing through a secure web-browser.

In addition, the IMEX GPS shipping system provides a technical bridge between order management systems, warehouse management systems, and IMEX data centers, eliminating the need for development and label/data file certification. Start taking advantage of IMEX Global Solutions delivery services quickly and with full compliance including:

- Package label compliance
- Electronic carrier manifest data generation and automated handling
- Tracking number generation at time of processing

Additional features include:

- Customizable email template for shipment notification
- On-demand reporting
- Scanner, scale and printer integration
- Third party systems integration

## GPS Integration Options

- Manual Entry
- Batch Upload
- Marketplace
- API

## Customs Clearance

IMEX Global Solutions develops a fully landed cost price with you prior to delivery. Our parcel specialists will help you determine the best and most cost effective solution and, if required, calculate duties and taxes.

## Security and Compliance

- TSA certified onsite cargo management
- Export compliance and regulation management
- All facilities are IAC with on site package screening
- Track shipments from the dock to the customer's door
- Benefit from our global returns process
